Message from the Vice Chancellor

Gokhale Institute of Politics and Economics (GIPE) was established in 1930 by the Late Rao Bahadur R.R. Kale, M.L.C., as a centre for higher learning and research in economics in remembrance of the great Indian nationalist leader Shri Gopal Krishna Gokhale. The Servants of India Society is the sponsoring trust of the Institute. Since those days, it has evolved into a premier institute of advanced study in economics and allied subjects with faculties and alumni who have distinguished themselves nationally and internationally as academicians, policy-makers and consultants.

Gokhale Institute of Politics and Economics (GIPE) has been widely recognized for its pioneering contributions in the subjects of Rural Development, Co-operation, Poverty Alleviation, Employment Guarantee, Crop Insurance, Planning, Federal Finance, Input-Output Economics, Agricultural Development, Irrigation and Demography and in several other areas related to the social and economic problems of India.

GIPE's excellence as an Institute of higher learning has been recognized both in India and abroad. The Reserve Bank of India, Ford Foundation, Planning Commission and Kamalnayan Bajaj Foundation have each instituted Chairs for distinguished faculties in Finance, International Economics, Planning and Development, and Industrial Economics respectively at the GIPE.

Although primarily a research Institute, GIPE is also renowned for the robust teaching programme leading to award of M.A./M.Sc., B.Sc. and Ph.D. degrees in Economics, initially of University of Bombay and later of University of Pune. In 1993, the Institute was recognised by University Grants Commission as a Deemed to be University.

An important aspect of its evolution as an eminent Institute of Economics is the increasingly inter-disciplinary approach to the subject. In accordance with this approach and to enhance its role as a Deemed University, the Institute has launched three new Masters programmes in Financial Economics and Agribusiness Economics (from July 2011) and International Business Economics and Finance (from July 2015). In addition, the Institute has considerably expanded its Ph.D. programme to 112 registered students, of whom 9 students had submitted their Ph.D. thesis. The Institute has student and faculty exchange programmes with the University of Gottingen,

The Institute has pleasure in presenting the Annual Report of its activities for the year 2024-2025.

Vision and Mission Statement

Vision: To conduct research, education and extension on the foremost social and economic problems at national and international levels with the aim of providing viable solutions for decision makers for the betterment of human life.

Mission: Gokhale Institute of Politics and Economics strives to undertake research and provides education in all the fields of economics with the singular purpose of contributing its might to enhance economic betterment and social welfare in the country.

About the Institute

Gokhale Institute of Politics and Economics is one of the oldest research and training institutes in economics in the country. It was founded on the 6th of June 1930 with an endowment offered to the Servants of India Society by the late Rao Bahadur R.R. Kale, Member of the Legislative Council from Satara. The Servants of India Society, founded by the late Shri Gopal Krishna Gokhale, is the Trustee of the Institute. The Institute is registered under the Societies Registration Act, 1860, and the Bombay Public Trusts Act, 1950.

The object of the Institute has been to conduct research into the economic and political problems of India and to train research workers in these subjects. Under the pioneering leadership of the late Professor D.R. Gadgil, its first Director, the Institute set the highest standards for quality research, teaching and training in a number of branches of economics.

Keeping in view the eminence of the faculty, the contribution the Institute has made in teaching, training and research in economics, availability of physical infrastructure and potential of the Institute, the Government of India, on the advice of the University Grants Commission, awarded the Institute the status of a Deemed to be University on May 9, 1993, the birth anniversary of the late Shri Gopal Krishna Gokhale after whom the Institute is named. In January 2025, the Institute has undergone its third cycle of NAAC accreditation. The Institute has also been given 12-B status by the University Grants Commission in 2019.

Research

The main thrust areas of the Institute, which have developed over the years through financial assistance from various sources, are agricultural economics and rural development, population studies, input-output studies for planning and development, microeconomics, macroeconomics, monetary economics and finance, public economics and international economics.

Various ministries and public funding agencies, including the Government of Maharashtra and private foundations such as Sir Dorabjee Tata Trust, financed the research activities of the Institute in its early years. Subsequently, in 1954, the Union Ministry of Food and Agriculture established, and has supported since then, the Agro-Economic Research Centre of the Institute. During the early fifties, the Rockefeller Foundation made

a substantial grant, spread over several years, for the conduct of a research programme in rural demography. By the time this grant period came to an end, the Union Ministry of Health, which had given grants for conducting some specific demographic studies in 1954-57, decided in 1964 to strengthen and expand the research work on population by financing, on a continuing basis, a Population Research Centre as an integral part of the Institute. The Ford Foundation gave very generous financial assistance for more than a decade beginning in the year 1956. Later, the Foundation, in collaboration with the Planning Commission, provided a separate grant for research and training in the areas of planning and development, mainly devoted to input-output studies. The Planning Commission has also given an endowment grant to the Institute to establish a chair and a unit for promoting teaching, research and informed debate on all issues relating to planning and development. The above-mentioned chair is named the 'Professor D.R. Gadgil Chair of Planning and Development'.

In 1962, the University Grants Commission recognised the Institute as a Centre of Advanced Study in Agricultural Economics, and later, in 1964 as a Centre of Advanced Study in Economics. In 1977 the UGC, as a part of its Area Studies Programme, established a Centre of Study of the Economies of East European Countries. In the same year, the Reserve Bank of India instituted a Chair of Finance. In 1989, the Ford Foundation gave a generous endowment grant to fund a chair and to establish a section in international economics to carry out research activities in international economics and related subjects. This grant also included support for the post of a Librarian and for acquisition of books and journals. Similarly, in 2005 the Kamalnayan Bajaj Trust gave a generous grant to fund a chair of economics.

The University Grants Commission, New Delhi, has sanctioned the Centre for Study of Social Exclusion and Inclusive Policy (CSSE & IP) in 2008 to carry out research and teaching in the areas of social exclusion, discrimination and inclusive policy. One outreach centre, namely Dhananjayrao Gadgil Centre for Sustainable Village Development was started in the Institute in 2016 to make the villages aware about the research activities done in agriculture and sustainable rural development, by continuous engagement at grass root level activities.

Teaching

The Institute was initially affiliated to the University of Bombay, conducting the M.A. Programme in economics and supervising the work of students working towards research degrees of that University. In 1949, with the establishment of the University of Poona, the Institute became a constituent recognised institute of the new University. Till 1993 the Institute functioned, for all academic purposes, as the Department of Economics of this

University. With the decision of the University to establish a separate Department of Economics at its campus, the Institute, as a Centre of Advanced Study in Economics, was granted effective autonomy in 1986 in designing courses, teaching and examination of the M.A. degree in economics. As stated earlier, the Institute was granted the status of a Deemed to be University by the Government of India with effect from May 9, 1993. The Institute now awards its own B.Sc., M.Sc., M.A. and Ph.D. degrees in economics and its allied subjects. After acquiring the new status, the syllabi of the courses offered at the Institute were thoroughly revised on the basis of the recommendations of a committee constituted for the purpose. Courses in the Master's programmes of the Institute are being regularly updated on the recommendations of Board of Studies and Academic Council. At present the Institute offers eight post-graduate programmes, viz., M.Sc. Economics, M.Sc. Economics (Financial Economics), M.Sc. Economics (Agribusiness Economics), M.Sc. Economics (International Business Economics and Finance), M.A. Economics, M.Sc. Economics (Population Studies and Health Economics), M.Sc. Economics (Public Policy), and M.Sc. Economics (Geopolitics and Geo-economics). From the academic year 2014-15, the Institute begun awarding M.Sc. degree instead of M.A. degree, with inclusion of an increased number of papers with upgraded syllabus and focus on quantitative techniques and their applications. Starting from the academic year 2019-2020, the Institute has initiated an undergraduate programme B. Sc. (Economics) which is a three year programme.

The Institute is also offering another master degree namely MA in development administration for the civil service officials in the campus of Yashwantrao Chavan Academy of Development Administration (YASHADA).

Training

In April 1989 the University Grants Commission selected the Institute and extended assistance to it for conducting refresher courses in economics for in-service university and college teachers from the western region of the country. In 1994, a year after the grant of Deemed to be University status to the Institute, the UGC extended the catchment area of the Institute for its refresher courses to the entire country. Since the inception of this scheme by the UGC, the Institute had conducted several UGC - sponsored refresher courses for university and college teachers in the past. Now, Institute conducts periodical training programmes on statistical techniques, creation of Input-output tables to Government officials. Besides, it also organizes several workshops and faculty development programmes for government servants and teachers from across the country from time to time.

Research Centres at the Institute

The Institute has three research centres established by the Central Government and University Grants Commission and three more research centres funded by private donors.

Agro-Economic Research Centre (AERC)

The Agro-Economic Research Centre (AERC), Pune was established by the then Union Ministry of Food and Agriculture in 1954. It has been an integral part of the Institute since its inception.

In 1962, on the basis of the quality and extent of work done by GIPE, its professional reputation, its contribution to research in agricultural economics and its potential for further development, the University Grants Commission selected it as a Centre of Advanced Study in Agricultural Economics, which was mainly attributed to the studies conducted by AERC. Two years later in recognition to the works of other centres and studies of the Institute, UGC re-designated the Institute as a Centre for Advanced Study in Economics (CASE).

The Centre also conducts studies allotted to the Institute by various agencies such as the Government of Maharashtra, NABARD and Planning Commission (now NITI Aayog), Government of India.

The AERC has completed about 185 studies since its inception. Its activities cover Farm Business Surveys, Studies related to Irrigation, Watershed Management, Rural Electrification, Village Surveys, Rural Credit, Agricultural Tenancy, Co-operation, Droughts and Famines, Crop Insurance, Agricultural Marketing, Agricultural Exports, Poverty Alleviation, etc.

A large number of these studies have made significant contributions to the field of agricultural economics and agricultural development of the country. These studies have been widely recognized by policy-makers and academicians and serve as benchmarks of excellence in their respective fields.

Population Research Centre (PRC)

‘Population Studies’ at the Institute predate the formulation of population policy, establishment of the family planning programme by the Government of India and founding of Population Research Centres. The Institute has played a pioneering role in conducting demographic surveys in India.

A demographic survey of Kolhapur city in 1945 made a lasting contribution towards evolving and establishing a standardized methodology of demographic surveys. A research centre in demography was set up at the Institute in 1949. This was the first of its kind in the country. The Union Ministry of Health and Family Welfare had given grants to the Institute for conducting specific studies during 1954-57. In 1964, the Ministry decided to strengthen and extend the research work on population

by establishing a Demographic Research Centre as a part of the Institute. In 1978-79, in pursuance of the recommendations of the Demography Advisory Committee, the Centre was re-designated as a Population Research Centre for the State of Maharashtra. It has earned the distinction of being included in the category of 'fully developed' centres according to the norms of the Ministry of Health and Family Welfare.

In the fifties, when no information on demographic issues was available, the Centre started its work by conducting demographic surveys and thus contributed in a major way to the area of survey methodology. After the launch of the family planning programme at the official level, the Centre contributed in the same by actively participating in the implementation of the sterilisation programme and by undertaking communication-cum-action studies. Evaluation of the after-effects of vasectomy camps and acceptance of the loop as an IUD gave valuable inputs about the methods of family planning.

Various dimensions of the family planning programme at its different stages, starting with its communication methods and including several of its other aspects such as compulsion during the emergency, adoption of spacing methods, maternal and child health, withdrawal of the targets, RCH approach of the programme, RTI/STI, client satisfaction and unwanted pregnancies, etc. have been studied by the Centre. The work of NGOs in the field of family welfare has also been evaluated. In recent years, evaluation of the sterilisation bed reservation scheme, functioning of family welfare training institutions, ultrasound sonography centres and urban health posts has been carried out.

In the area of data collection on a wide scale, the Institute has independently carried out or participated in major surveys in 1980s and 1990s (NFMS, 1980; NFHS, 1992-93; and RCH Baseline Survey, 1998). Apart from evaluative and fact-finding surveys, many analytical studies are carried out. A study on the cost of health care in public hospitals in Maharashtra was completed. The Centre has completed two rounds of a World Bank-sponsored research study on the quality of health care (client and provider satisfaction) in India/Maharashtra. The demography of India's tribal population is another completed research project. Later, the Centre is involved in activities related to the strengthening of the Health Management Information System (HMIS), an initiative of the Ministry to collect the district and facility level health data on a monthly basis. Currently, the Centre is fully engaged in undertaking the work of monitoring Programme Implementation Plan (PIP) of various health schemes across districts of Maharashtra.

Centre for the Study of Social Inclusion Policy (CSSIP)

CSSIP (earlier CSSE&IP) is a multi-disciplinary research centre established by the UGC in the year 2008 (as part of the Eleventh Plan) to carry out research and teaching in the areas of social exclusion, discrimination and inclusive policy. Its key objective is to conceptualize and define problems related to discrimination, exclusion and inclusion based on caste, ethnicity and religion. It focuses on developing an understanding of the nature and dynamics of exclusion and discrimination at both theoretical and empirical levels.

Centre for Sustainable Development (CSD)

The Centre was established on 1st January 2023, and is rapidly rising to be a hub for trans-disciplinary research and evidence-based action in sustainability.

The CSD's approach moves beyond merely addressing symptoms, focusing instead on identifying and tackling root causes through evidence-based levers of change. CSD works on the principles of Ecological integrity, Trans-disciplinarity & Systems approach, that leverages community Participation and ensures replicability in a wider geographic setting.

The CSD focuses its operations across several critical thematic areas such as Renewable Energy / Bio-Economy, Rural Development / Climate Resilience, Circular Economy / Urban Challenges, Marine Pollution and Policy/Socio-Economics.

Centre for Excellence in Entrepreneurship Development (CEED)

The Centre for Excellence in Entrepreneurship and Development (CEED), along with the deAsra Centre of Excellence in Nano Entrepreneurship, is an entrepreneurship policy research and advocacy center established on 15th August 2022 at the Gokhale Institute of Politics and Economics (GIPE).

The vision of the Centre is to put research in business and entrepreneurship into practice and achieve betterment of society through nurturing values of entrepreneurship and self-employment. It will bring together thought leaders from academia, industry and policy to critically discuss current issues in entrepreneurship, as well as to generate new ideas and devise new solutions. This discourse will be driven by evidence-based action research and will address a wide range of issues faced by diverse segments including unorganized "Nano" enterprises, women and youth led businesses. The Centre also serves as a link between students seeking experience solving the real-world challenges facing small business, and businesses seeking to utilize GIPE's resources. To achieve these goals, the Centre will adopt a multi-pronged approach by conducting interdisciplinary, evidence-based research that will guide and inform policy making, enablers and influencers of entrepreneurship.

The broader objectives of the Centre are as follows:

- Putting research into policy and practice, by applying new methods of data collection and analysis of enterprises at the ground level.
- To conduct research projects and fieldwork-based analytical studies of large and complex datasets on MSMEs and innovation, and longitudinal analysis of policy changes affecting business firms.
- To disseminate the Centre's work to be used by enablers, policy-makers and regulators in India and abroad.

- To create a network of people and organizations involved in small business and entrepreneurship research, policy, education, support and advice.
- To create meaningful opportunities among students, faculty, and the business community to network and exchange their ideas, knowledge, and experience in small business and entrepreneurship.

Centre for Health Policy and Systems (CHPS)

The Centre for Health Policy and Systems (CHPS) at Gokhale Institute of Politics and Economics (GIPE) was established on May 03, 2022 to consolidate Gokhale Institute's portfolio of work on health policy and systems into a coherent whole. The Centre is committed to expanding research on health policy and systems, contributing to health policy and practice, and better engaging with the current policy and scholarly discussions on universal and equitable health coverage in India and beyond.

Besides these three centres, the Institute also houses four prestigious Chair Professorships, viz.,

1. RBI Chair Professor of Finance whose unit conducts research and teaching in Monetary and Financial Economics (funded by Reserve Bank of India).
2. D.R. Gadgil Chair Professor of Planning and Development (funded by Planning Commission of India).
3. Ford Foundation Chair Professor of International Economics (funded by Ford Foundation).
4. Kamalnayan Bajaj Chair Professor of Industrial Economics (funded by Kamalnayan Bajaj Foundation).

The Institute also has one extension centre namely Dhananjayaram Gadgil Centre for Sustainable Village Development which works at grassroot level in areas for bring about awareness towards sustainable development projects.

Blood Donation Camp 2024

On the occasion of World Population Day, observed on 11th July 2024, the Population Research Centre (PRC), Pune, organized a blood donation camp. The initiative aimed to promote awareness about population health. We received an enthusiastic response from donors, reflecting their strong commitment to this noble cause. The event witnessed active involvement from PRC staff, students, and the public. It served as a reminder of the importance of collective responsibility in addressing public health challenges. Overall, the camp was a resounding success and greatly appreciated by all participants.

Library Services

Gokhale Institute of Politics and Economics (GIPE) shares the Servants of India Society's Library (re-named as Dhananjayarao Gadgil Library) from 1930 onwards, i.e. since the inception of the Institute. This library is considered to be one of the foremost specialised libraries in India in the fields of economics and other related social sciences. The library has **288,513** documents and **137** journal titles received on subscription, exchange, gift, and depository basis. All the library management operations are automated using SLIM software. Library OPAC is accessible both on the LAN as well as Internet from <http://14.139.114.41/iopac>.

GIPE Library started the digitisation work in 2011 and till March **2025** more than **34300** documents were digitised and uploaded on the Digital Library of GIPE, i.e. DSpace@GIPE. All these digitised documents are made accessible to the scholars around the world through our Institutional Repository <http://dspace.gipe.ac.in>

With a view to abreast the users about the new addition of books to the Library and the contents of the newly received journals, the library brings out

- 1) Fortnightly List of Articles on India, and
- 2) Annual Cumulative List of Articles on India

During the academic year **2024 – 2025**, the library procured **137** periodicals/journals which included 75 Indian journals and 62 foreign journals. Apart from these, library also subscribes to online databases like, EBSCO EconLit and Indiatat.com, Prowess, EPWRF etc. Besides, the Library also has access to JSTOR, EPW, and India Trade through UGC-Infonet Programme. The details of the current journals are given below:

Subscribed	: 52
Exchange	: 67
Gifts	: 14
Depository	: 04

The Library also added **1744 Documents** to its collection in **2024 – 2025** with accession numbers ranging from **286770 to 288513**. This includes the reaccessioning of **1398 Maps and Atlases**. The cost of the books and journals purchased/subscribed are given below:

Health Centre

From 01 June 2024 to 31 May 2025, the Health Centre has endeavored to ensure preventive and curative measures for wellbeing of GIPE students, staff and their families.

Patients: Total number of consultations conducted: 1071

New patients constitute approximately 40% of total patients and 60% are follow-up visits, either for similar or new reasons.

Disease Profile: Most patients present with symptoms of seasonal illnesses. Apart from these, patients have been treated for various injuries, skin ailments, vitamin and mineral deficiencies, hormonal disorders, orthopedic problems and other non-communicable diseases.

Vaccination: At GIPE Health Center, we also provide vaccination services.

- 1) Tetanus: This vaccine is provided free of cost to patients when necessary.
- 2) ARV (Anti-Rabies Vaccine): This is made available to anyone who suffers injury due to dog/cat attack.
- 3) HPV (Human Pappiloma Virus): Popularly known as the Cervical Cancer vaccine, this is made available at the Health Center for those who need it. Endeavor is to create awareness and educate patients regarding the same.

Health Camp: A comprehensive health check-up camp was conducted in Health Center on 05/12/24. The camp offered discounted tests to evaluate Hemoglobin, Total cholesterol, Blood sugar, Vitamin D and Vitamin B12. Total 47 persons participated and benefited from this program. Follow-up consultation and treatment was provided to all participants as per their health requirements.

Conclusion: The Health Center in GIPE has been proactively catering to health requirements of students (on and off campus), staff members and their families. The doctor endeavors to provide seamless and hassle free treatment to all—not only those who visit health center, but also those who need specialized care in other hospitals in Pune

The Computer Centre

The Statistical Department

The Statistical Department helps the statistical research team at GIPE which assists faculty members, researchers and students with data analysis.

The Computer Centre housed in the Statistical Department is well-equipped with hardware and software to support research, teaching and training programmes of the Institute. A one-year Certificate Course on Computer Applications for Economic Analysis has been introduced for the past and present M.A./M.Sc. and Ph.D. students of the Institute to complement the training in economics received by them at the Institute. The students are equipped with the latest analysis/analytical tools such as STATA, EVIEWS, SPSS, MATHEMATICA, etc., in a specially designed certificate course which adds value and insight to theoretical learning.

In the computer laboratory, students have access to the internet both for reference work and communication. The most up-to-date resources for these purposes are at hand as the Institute subscribes to superior resource websites such as Encyclopaedia Britannica, JSTOR, Indiastat, Springer link, etc.

Consultancy and guidance services in data processing in collaboration with the Indian Council of Social Science Research

In the Computer Section, facilities for data processing are available to researchers. The Institute offers consultancy and guidance services in data processing in collaboration with the Indian Council of Social Science Research.

Publications

The Institute has been regularly publishing a quarterly journal of economics in English, Artha Vijnana since March 1959. It publishes results of research work carried out in the Institute as well as works of scholars from outside the Institute after a rigorous refereeing process. The journal achieved an important milestone in 2008 by completing its 50th year of continuous publishing. To celebrate the occasion, the Institute published a Golden Jubilee Special Issue of the Journal (Vol. 50, No. 4, December 2008). The Institute also publishes research works in the form of working papers, books and mimeograph series. The R.B.R.R. Kale Memorial Lecture, organised by the Institute every year on the occasion of the Founder's Day, is published under the Kale Memorial Lecture Series.

Staff Quarters and Hostels

The Institute has its own residential campus, about 700 meters away from the academic campus, with quarters for both teaching and non-teaching members of the staff. The residential campus also houses hostel facilities for male and female students. Besides, Institute has a well-furnished air conditioned Guest House mostly used to accommodate visitors to the Institute from time to time.

Its strategic location with respect to the Institute and the city ensures minimum wastage of time and resources in commuting, and provides the faculty members and students a peaceful environment in which to pursue their research or class work. However, the importance of recreation is fully recognized and on-campus provisions are made for several sports such as volleyball, table tennis, cricket, badminton, etc. The hostels have an adjoining dining hall and a TV room. The proximity of the hostels to the staff quarters allows students' interaction with the faculty members on a personal basis which also enhances faculty-student interaction and creates opportunities for discussions outside the class on issues of current economic importance.

Students' Activities

GIPE provides its students with an environment conducive to their all-round development. It not only encourages students to excel academically, but also inspires them to pursue their hobbies in sports, dance, music, quiz competitions and other activities. Active participation and tremendous enthusiasm is seen among students in the annual cultural event 'PULSE' and the annual sports week 'Utsaah', to name a few.

Equilibria is an in-house students' magazine that captures the independent view of the students through brief articles, views, interviews, etc. It also focuses on materials provided by the students as well as faculty members on various economic issues and even topics related to Politics and Sociology.

Veritas is the annual magazine of Gokhale Institute of Politics & Economics. It focuses on long format essays and articles on a host of topics such as Economics, Finance, International issues and Politics. It also features a cover story written by the Editorial Board.

Manan: As a part of its endeavour to take learning beyond the classroom, the Institute organizes several academic events that provide a platform for students and faculties of the institute to simulate solutions to real life economics problems. Manan, the Economics festival organized by students, was started in 2012 to stimulate social and intellectual activities among students, and to develop in them an abiding interest in the study of Economics through events designed to test their innovation and imagination.

UTBT: Policy Discussions Under the Banyan Tree (UTBT) is a students' initiative. The Institute's campus has the historic Banyan Tree under which Gopal Krishna Gokhale and Mahatma Gandhi discussed issues of national importance under the British Raj and began charting the independence movement. Students and teachers alike gather under the Tree once a week and discuss and debate over a pre-decided aspect of Government policy.

GIPE Sports Committee conducted Sports Week from 10th to 19th January 2025, bringing together students from various courses at Gokhale Institute to compete across eleven sports. The event fostered healthy competition and camaraderie among participants.

Overall Winners for Sports Week 2025:

1. MSc Agribusiness
2. MSc IBEF
3. MA Economics

Prize Distribution Ceremony for Sports Week 2025 was held on 23rd January 2025 in the hostel mess. The event was graced by the presence of the Dean of Student Affairs and Welfare. The ceremony celebrated the hard work and dedication of all participants, with medals and trophies awarded to the winners of individual and team sports. The overall winners, MSc Agribusiness, were honoured with the championship trophy, followed by MSc IBEF and MA Economics, who secured second and third place respectively.

Independence Day 2024

Ibaadat: Following the semester break, this music committee of GIPE kicked off the new academic term with a warm welcome, on 22nd July to the junior batch, featuring a mesmerizing solo performance by one of our talented vocalists at The Kale Hall, as part of the Induction Programme, setting the tone for an exciting semester ahead. Ibaadat performed in the Independence Day Celebrations 2024.

Performance by Ibaadat

The university community came together to participate in a lively Antakshari competition, a fun-filled event that brought staff and students together, followed by an exciting

CANDID- The photography society of GIPE covers the events of students. During sports week, it covered everything ranging from the intense adrenaline rush moments to the calm and composed moments, Moments of despair to the moments of joys, moments of Anger, Pain, frustration, support and many more moments.

Evolve Consulting: Conducted Kautilya Case Competition in March 2025. The competition provided an excellent platform for participants to showcase their problem-solving abilities and strategic thinking. The event witnessed over 25 teams registering, with 9 teams competing in the finals—including two teams traveling from Mumbai and few from MBA colleges in Pune.

8:10 News Letter: It was created and run by the students of BSc Economics, and has been a platform for our students to pen down their thoughts and opinions, and showcase their love for writing. It is an online bimonthly newsletter with articles ranging across diverse topics and varied perspectives.

Theatre Committee of GIPE (Junoos): Participated in Firodia and Purushottam Karandak.
