

Gokhale Institute of Politics and Economics

(Deemed to be University)

PLACEMENTS & INTERNSHIPS BROCHURE 2026

*Nurturing Industry-Ready Economists for
Policy, Finance and Analytics*

FROM THE DESK OF THE CHANCELLOR

Sanjeev Sanyal

Dear Recruiter,

It is my privilege to introduce the 2024–26 cohort of the Gokhale Institute of Politics and Economics (GIPE), a premier institution in economics and allied disciplines since 1930. Founded by the Servants of India Society, GIPE was envisioned as a space where rigorous academic inquiry would meet the nation's socio-economic aspirations. Inspired by the legacy of Gopal Krishna Gokhale, we remain committed to nurturing responsible, informed, and capable citizens.

For over nine decades, GIPE has shaped economic research, policy discourse, and professional training in India. While rooted in tradition, our programmes continually evolve to meet the demands of a fast-changing global economy. Students receive a strong foundation in theory, rigorous training in empirical methods, and hands on experience with industry-relevant tools – from econometrics and data analytics to widely used software applications.

Our graduates combine quantitative expertise, policy insight, and adaptability, enabling them to perform and lead in dynamic environments. GIPE alumni today, hold leadership roles across academia, government, finance, consulting, and development sectors. As you engage with this exceptional cohort, I am confident you will find professionals ready to contribute from day one with integrity, analytical depth, and a readiness to solve real-world challenges. I warmly invite you to explore collaboration with GIPE and tap into the value our students can bring to your organisation.

FROM THE DESK OF THE VICE CHANCELLOR

Prof. Umakant Dash

Dear Recruiter,

Warm greetings from the Gokhale Institute of Politics and Economics (GIPE), India's oldest and one of its most

distinguished institutions in economics research, education, and policy studies. For over nine decades, GIPE has been a hub of academic excellence, committed to addressing the socio-economic challenges of India while adapting to the evolving needs of industry and society.

Our academic portfolio spans undergraduate and postgraduate programmes, including our flagship M.Sc. Economics and specialisations in Financial Economics, Agri-Business Economics, International Business Economics & Finance, Population Studies & Health Economics, Public Policy, and Geopolitics & Geoeconomics, as well as the M.A. in Economics. Admission is through a rigorous national-level process, ensuring that every student combines intellectual capability with drive and ambition.

At GIPE, we blend robust theoretical foundations with hands-on technical training in econometrics, statistics, data analytics, and programming, complemented by policy and business perspectives. This approach equips our students to analyse complex problems, derive actionable insights, and deliver results in today's fast-paced, data-driven professional environments.

As you look to strengthen your teams with talent that is analytical, adaptable, and impact-oriented, we are proud to present our graduating cohort. We look forward to connecting you with this exceptional pool of young economists and fostering a mutually rewarding partnership between your organisation and GIPE.

WHY HIRE FROM GIPE?

“The Students from here are “Different” ...Just “On-Board” them... Watch for an “Enhanced Per-Capita Productivity Graph” of your Firm.”

A Historical Emblem of Quality and Rich Tradition of Excellence

- Founded in 1930 by the Servants of India Society, GIPE is a leading institution in the space of education and research across various strands of Economics.
- Pioneered the Economic Thought and policy making of Independent India and continues to Contribute to the Indian economic and financial system through teaching, research, and policy engagement.
- Currently, recognised as a Deemed-to-be University, GIPE professes holistic experiential learning towards creating an efficient pool of manpower resources in economic policy, analytics, and finance for the NewGen Macro-Financial Eco-System.

An Incubation Hub of Creative Ideas

- GIPE students are groomed through a rigorous curriculum that blends strong theoretical foundations with hands-on, applied learning.
- They get ongoing exposure to real-world projects, advanced analytics, and industry-linked assignments, which sharpen their analytical and decision-making capabilities.
- Students of GIPE are Grounded with Soft Skills – Writing, Communicating, Manners & Etiquettes to Enhance their Competencies in Hard Skills.
- A Sweet Blend of “Good Human Beings” and “Efficient Workers” – GIPE Students are Best Suited to contribute tangibly across the Spaces of Consulting, Finance, Analytics, Research, and Policy Making Roles from Day One.

The Human and Academic Rigor One Can Rely On

- GIPE Students are Future-Ready and Eco-System-Ready as they Learn to be Trained to be Disciplined and Devoted to Deliver from the moment they are member in any Team with minimal Onboarding Requirements and Low Investment on Induction.
- They have acquired the required Skills to demonstrate Strong problem-solving ability, Conceptual clarity, and hence the expected professional maturity.
- The GIPE Students are given the Unique Opportunity to learn along with Industry-Professionals under the same roof at GIPE thus reducing the possible Arbitrage in Information, Experience and Expertise.

HOW DOES THIS HAPPEN?

Distinguished, Dedicated and Dynamic Faculty

- The Faculty Profile is very rich with dignified Qualifications, Vast Experience in both Teaching and on Field Research.
- Tremendous Sources of Inspiration to the Students - many of the Faculty Members are well-known in the Academic and Policy-Making Space - nationally and internationally - by virtue of their Publications, Talks and Contributions to the Society.

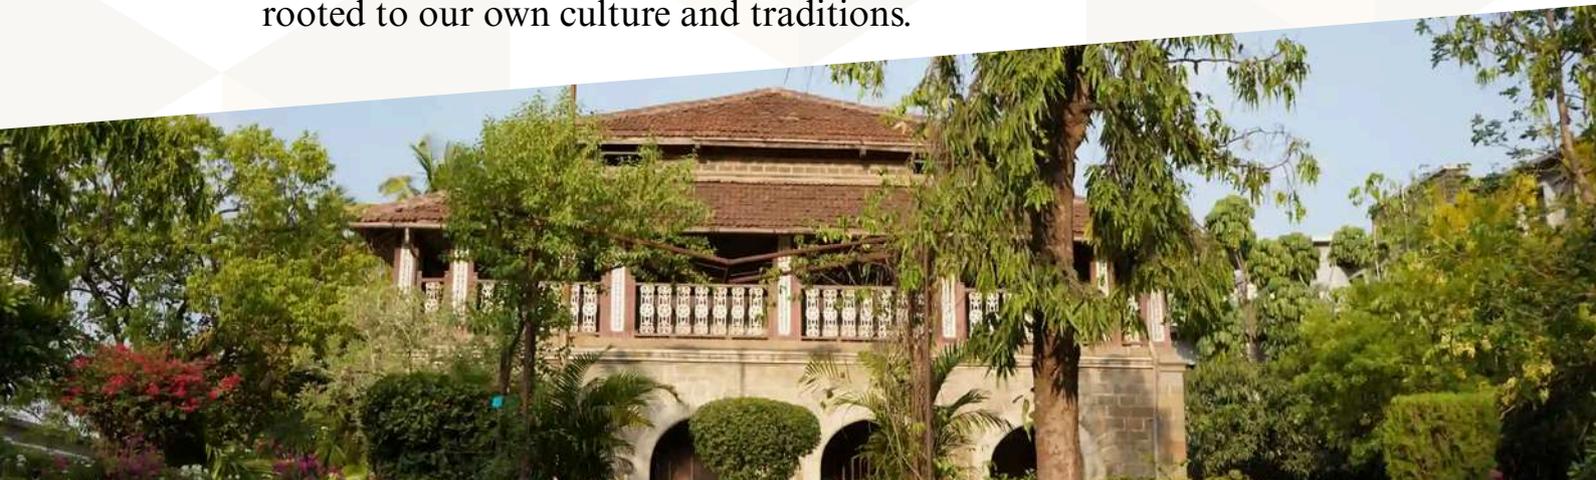

Loyal, Learned and Limitless Alumni

- GIPE alumni occupy leadership and specialist roles in government bodies, financial institutions, consulting firms, analytics companies, policy think tanks, and global organizations manifesting the quality of grooming at GIPE.
- Their on-going visit to the Campus to “Give-Back” to the next generation of GIPE students enrich the students’ contemporary knowledge-base in policy formulation, finance, research, and governance.

Beyond Classroom Extra Curricular Activities for Holistic Personality Development

- Opportunities are afloat round the year for the students to enrich their inherent talents in music, dance, photography, writing, public speaking etc.
- Student - led events management is encouraged to groom them on liasioning, publicity, ideas - incubating etc.
- Sports, NSS, rural visits, yoga etc are organized to let the Students remain conscious about “body-mind-soul” from young age and to remain firmly rooted to our own culture and traditions.

THE ACADEMIC ECO-SYSTEM AT GIPE

A BRIEF TOUR

Special and Unique Learning Programmes at GIPE

- GIPE uniquely offers postgraduate programmes in Economics in eight areas laced with inter-disciplinary rigor and thus inherently designed to meet evolving industry, policy, and research requirements.
- Programmes include M.A. Economics and M.Sc. Economics with specializations in:
 - Financial Economics
 - Agri-business Economics
 - Public Policy
 - Population and Health Economics
 - International Business Economics and Finance
 - Geo-Politics and Geo-Economics
- Core courses provide strong grounding in microeconomics, macroeconomics, statistics, econometrics, development economics, public finance, and international economics.
- Electives allow specialization in finance, analytics, policy analysis, trade, governance, and strategic studies.
- The curriculum integrates theory, applied projects, case discussions, internships, and compulsory research work.
- Courses are designed to stay ahead of time and aligned with contemporary economic dynamics.
- Two new Courses – “Process Reforms for Good Governance and Economic Development” and “Dynamics of New Age Financial Systems – Emerging Risks and the Move Towards Resilience” are being taught in GIPE – ‘only in India’ feature.

EXCEPTIONAL TALENT BACKED BY EXPERIENTIAL LEARNING

Students mimic a “Mini-India” and a Cohort of Exceptional Talent

- Students are enrolled through strong and Strict Admissions Procedures across all these inter-disciplinary PG Programmes in Economics and a four-year UG Economics Programme.
- Each PG batch typically comprises 50-60 students across all the above eight Economics programmes.
- The batch represents diverse academic backgrounds and multiple states and union territories of India.
- Each cohort is groomed as a balance of academic excellence, analytical aptitude, and industry orientation.
- Strong training in economics, econometrics, finance, and data analysis/science forms the foundation of students’ capabilities.
- Technical exposure is given to the students in sync with contemporary market demand which includes R, Python, STATA, SQL, Excel, Power BI, and Tableau.

Internships as an Official Tool of Experiential Learning at GIPE

- Internships are an integral component of the academic structure at GIPE.
- Students (First Year PG and Third Year UG) as a part of their evaluation system undertake internships across consulting firms, financial institutions, analytics companies, government bodies, policy think tanks, and research organisations.
- Internship roles span data analysis, financial analysis, policy research, consulting support, and applied economic research.
- Summer internship duration: 8 weeks (May–June)
- A significant proportion of students receive paid internships, with several receiving Pre-Placement Offers (PPOs) - Highest internship stipend: ₹2 Lakhs and Average internship stipend: ₹60,000
- These engagements enable students to apply classroom learning to real-world problems and enhance professional readiness.

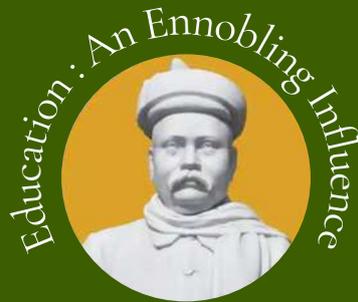

PLACEMENTS

A CONSCIOUS APPROACH

GIPE's Gift for the Industry and Market

- There is a Placement and Internship Committee of the Faculty which guides the Placement and Internship Implementation Cell consisting the Students.
- Students are specially given orientation training by the well-known HR Experts and Career Counsellors to remain “Capable to Add Value” wherever they are selected for work.
- GIPE has thus created a strong and consistent placement record across the macro-financial space; notably, consulting, BFSI, analytics, research, policy, and corporate sectors.
- Past Recruiters have valued GIPE graduates for their analytical rigor, domain knowledge, and ability to adapt quickly to professional roles and integrated into their teams with competitive compensation - Highest CTC: ₹24 LPA - Average CTC: ₹11 LPA - Median CTC: ₹9.5 LPA
- Placement rate remains consistently high across the various Economics programmes and are chosen to be placed in roles such as Economist, Data Analyst, Business Analyst, Consultant, Risk Analyst, Strategy Analysts and Research Associates.
- The Placement Cell ensures structured coordination and smooth engagement throughout the recruitment process.
