To: Mr. Kiran Ghatbandhe,

**Re: Invitation for delivering few lectures in the remedial classes of the course "Introduction to Calculus for Economics" as a Visiting Faculty at the Gokhale Institute of Politics and Economics, Pune**

Dear Kiran,

The Gokhale Institute of Politics and Economics is pleased to invite you to conduct few lectures for the course 'Introduction to Calculus for Economics' for the B.Sc. (Economics) program during the academic year 2019-2020.

Please find attached along with this letter a syllabus related to the course that has been approved by the academic council at the Institute. You are expected to take 10 sessions of one hour each from 31<sup>st</sup> January. The course coordinator will work with you to create a mutually agreeable schedule for these classes.

The Institute offers a remuneration of INR 2500/- per hour. This includes conveyance. The payments will be credited to your bank account via RTGS. In case you are teaching at the Institute for the first time, please fill out a form pertaining to your account details to facilitate payment. The form is available with the B.Sc. academic section.

In case you have any queries, please feel free to get in touch with us at any point of time.

An official line of confirmation from your end will be greatly appreciated. We look forward to working with you.

Regards,

Dr. Anurag Asawa/ Dr. Ashish Kulkarni  
Course Coordinators,  
B.Sc. (Economics),

1. Prof. Pattanaik Presented the structure of the programme and list of courses. Prof Medha Deshapande and other faculty suggested some changes in the syllabus and titles of the courses. Revised syllabus is attached.
2. Semester 3 and Semester 4 courses would be taught in hybrid mode for Maharashtra Government officials. Other students will attend the classes off-line.
3. Syllabus of the Bridge course in Microeconomics for M.A.(Economics) programme is discussed and approved. Syllabus attached.
4. Revision to the course - MA-A-11 Financial Institutions and Markets for M.A.(Economics) Programme will be discussed in the next Board of Studies Meeting.
5. Issue related to a few courses of International Business Economics and Finance program discussed and approved as follows:

A.

Sr. No.	Existing	Proposed
1	Compulsory Course IBEF-A-13: Corporate Finance and Treasury Management in the IBE&F program	Removed
2	Optional Course IBEF-B-17: Corporate Finance and Capital Budgeting	Compulsory Course by renaming IBEF-A-21: Corporate Finance and Capital Budgeting  This Course will be merged with the Compulsory Course FE-A-106: Corporate Finance and Capital Budgeting offered under the Programme M.Sc. in Financial Economics and the classes will be held together. *

\*This course will be offered in Semester II from the Academic Year 2023-24 (Dec. 2023 – April 2024) for the Batch 2023-25 with the M.Sc. (Financial Economics) program

# Gokhale Institute of Politics and Economics

(Founded by Rao Bahadur R.R. Kale, Satara)  
(Deemed to be University u/s 3 of the UGC Act, 1956)  
846, Shivajinagar, B.M.C.C. Road  
**PUNE - 411 004 (INDIA)**

- B. To merge the Compulsory Course IBEF-A-18: Foreign Exchange Derivatives with the Compulsory Course FE-A-113: Financial Derivatives of the program M.Sc. (Financial Economics) and named as IBEF-A-22: Financial Derivatives.

Sr. No.	Existing	Proposed	Remark
1.	Compulsory Course IBEF-A-18: Foreign Exchange Derivatives  Compulsory Course FE-A-113: Financial Derivatives of the program M.Sc.	Compulsory IBEF-A-22: Financial Derivatives*	Merging is only for IBE&F Program

\*This course will be offered in Semester II from the Academic Year 2023-24 (Dec. 2023 – April 2024) for the Batch 2023-25 with the M.Sc. (Financial Economics) program.

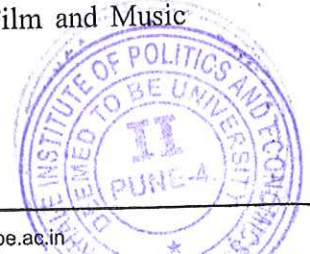

- C. To offer the Compulsory Course IBEF-A-09: Export-Import Procedure and International Logistics in Semester III from the Academic Year 2024-25 instead of Semester II to reduce the no. of compulsory courses in Semester II. So it's applicable to the 2023-25 batch (No attachment).

6. Dr Anurag Asawa presented the details of the elective B.Sc.(Economics with research) (Four Years).

A. Structure and Courses for B.Sc.(Economics) with research (Four Years) has been discussed and approved with minor changes. There will be no constraint on the number of students for this elective. To offer any of the electives of B. Sc.(Economics) (Four Years) programme should be a minimum of 20 students. Similarly, there should not be more than 50 students in any elective.

B. Title of the course 'Indian Rural Economy' proposed to change to 'Socio-economic Supervised Learning' and the same is approved. Details of the course (syllabus and execution) will be shared by Prof. Gurudas Nulkar and Mr. Shardul Manurkar.

C. Syllabus of two courses 'Yoga and Mental Wellness' and 'Indian Film and Music Appreciation' has been discussed and approved. Details attached.

Dear Students,  
Welcome to GIPE- MA\_Batch 2023-25 !

We are excited to have you in GIPE.

As you may know, microeconomics, mathematics and Statistics have been an integral part of economics. To teach you some necessary concepts and help you to brush up your knowledge, we are organizing a bridge course in microeconomics, mathematics and Statistics from **17th to 31st July**.

- The attendance of these classes will be compulsory and you have to fulfill all the required assessments of the course and should pass the bridge course exam.**
- You will get a certificate for the same which will be an addition to your CV.

Kindly fill this google form so we can make necessary arrangements. About the lecture timetable, soon will let you know.

Google form link: <https://forms.gle/YZqsMVaLTAaFjkN38>

Thanks and regards,

**Ms. Pallavi Suryawanshi**

## c -01 Microeconomics Bridge Course for MA students (2023-24)

### Preamble

*This course is designed to provide foundational knowledge of the basic principles of microeconomics. This course is instrumental to enable the students' learning in the subsequent advanced courses. This course shall equip students with the understanding of the fundamental concepts and tools required for the advanced courses. This course shall introduce students to the process where the consumers, producers and governments interact in the markets. This course will familiarize students with the theoretical as well real world applications of the microeconomic concepts. Appropriate assignments and handouts will be designed for this purpose.*

*This course has no prerequisites.*

### **Module 1: Introduction to Microeconomics**

Objective: *This module will familiarize students with the nature of microeconomics, and the basic concepts in supply-demand framework.*

- a. Fundamental mathematical concepts
  - i. Ingredients of mathematical models
    1. Variables, parameters, equations and identities
    2. Sets, relations and functions
  - ii. Solution to linear equations
  - iii. Introduction to non-linear equations – convexity
  - iv. Introduction to vectors and matrices, operations on matrices
  - v. Introduction to differentiation, rules of differentiation
    - b. Basic Principles of microeconomics, three fundamental questions of production - what, how, who gets.
    - c. Thinking marginally – the marginal revolution
    - d. Understanding supply-demand framework. Applications of the framework.
      - .The market demand and supply curves - horizontal summation.
        - i. Supply and demand - graphical
        - ii. Supply and demand functions - algebraic treatment
        - iii. Finding equilibrium - conceptual, graphical and mathematical
    - e. Shapes of demand and supply curves
      - .Shifts and movements in the supply and demand curves
        - i. Elasticity of demand: concept and estimation
        - ii. Optional: Incidence of tax - statutory vs economic incidence. Numerical example.
        - iii. Price floors and ceilings - Numerical example.

### **Module 2: Consumer theory**

Objective: *This module will familiarize students with the assumptions and properties of consumer preferences, budget constraints and the concept of optimal consumer choice.*

- f. Consumer choice
  - i. Preferences
    1. Assumptions and properties of preferences.
    2. Indifference curves - Assumptions, properties, forms
    3. Utility functions - properties, forms
    4. Marginal Rate of Substitution (MRS) - mathematical treatment.
    5. Real world examples on preferences
  - ii. Budget constraints
    1. Understanding Opportunity cost

2. Budget Constraint - graphical and mathematical representation. Examples.
  3. Budget set and budget line.
  4. Marginal Rate of Transformation (MRT) - numerical calculation.
  5. Shifts and movements of Budget constraints - price and income changes.
  6. Optional: Intertemporal income and consumption.
- iii. Constrained choice
1. Graphical and mathematical representation of consumer choice - constrained maximization of utility.
    - a. Lagrangian method
  2. Corner solutions
- g. Understanding demand
- . Demand curves
1. Demand as function of income and price.
  2. Optional: Deriving the demand curve - Relation between preferences, utility, budget constraint and demand. (where does the demand curve come from?)
    - i. Income and substitution effects - decomposition of price changes
    - ii. Cases of Giffen goods, perfect complements and substitutes.
    - iii. Labour supply - Deriving labour supply. Choice between consumption and leisure. Substitution and income effects in labour supply.

### **Module 3: Producer theory**

Objective: This module will introduce the students to the problem of the firm. Students will understand the production function, its properties, returns to scale and costs. Students will be able to solve the profit maximization problem of the firm.

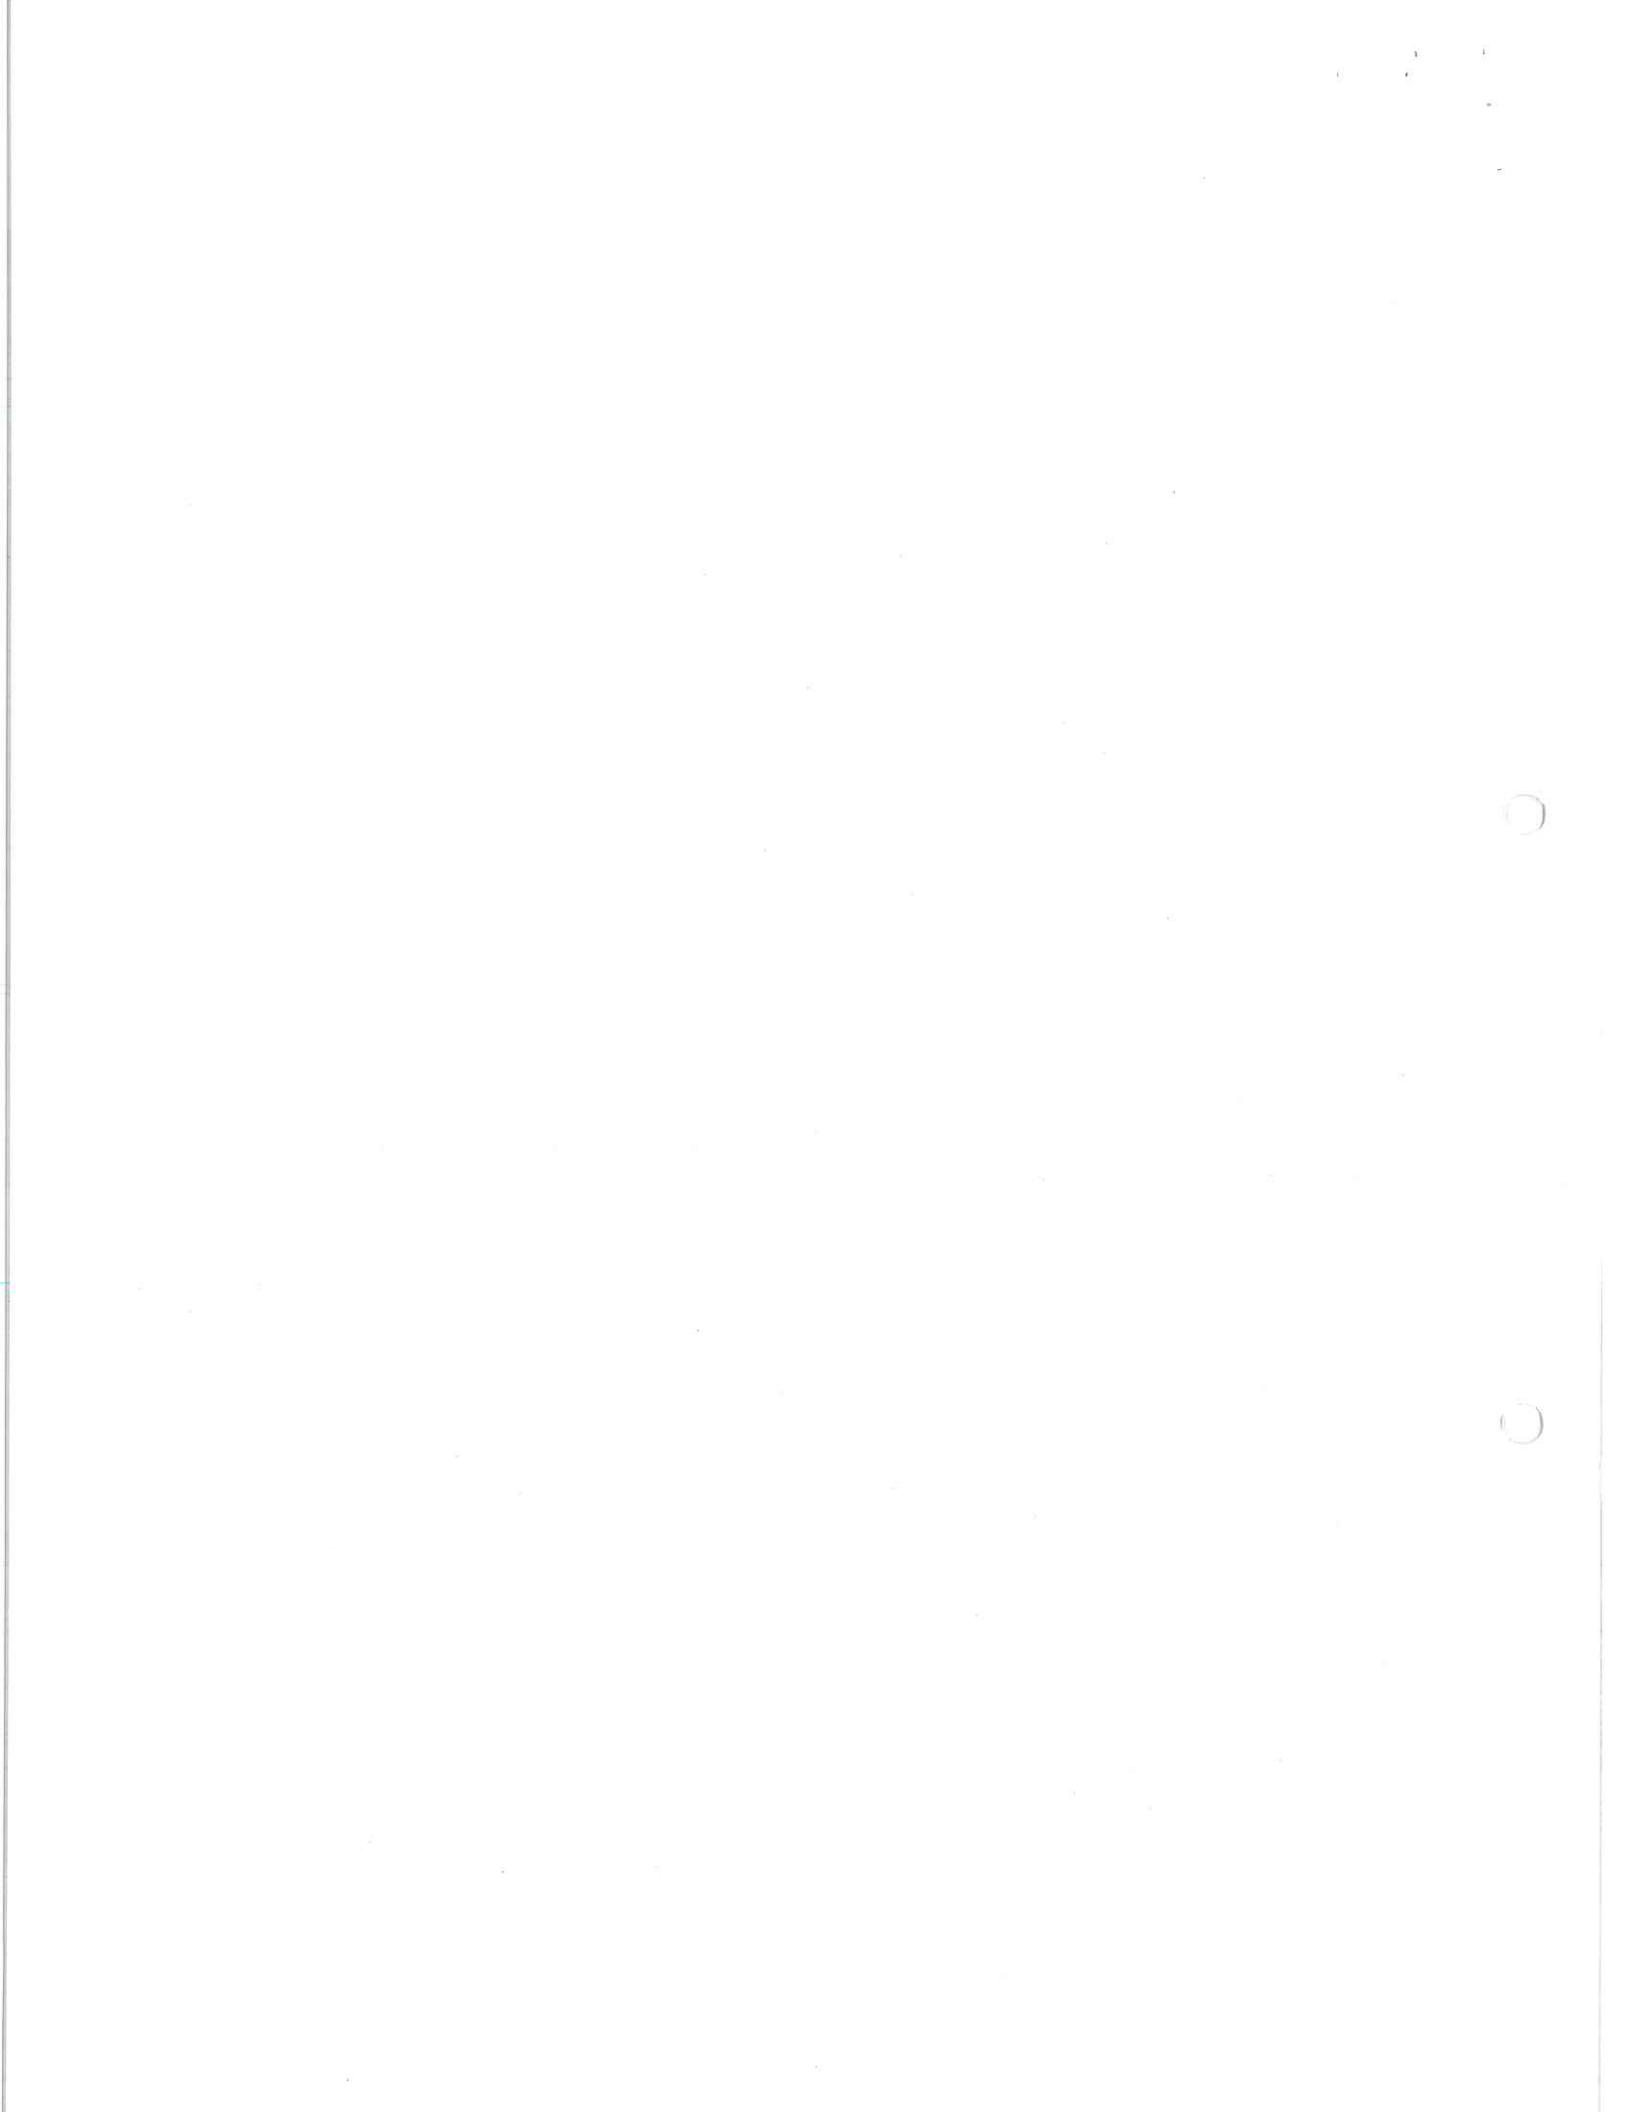

- h. Production function: Profit maximization objective
- i. Properties of the production function
  - ii. Isoquants and marginal rate of technical substitution (MRTS) - numerical example and calculation.
  - iii. Returns to scale: Cobb-Douglas production function, Constant, Increasing, Decreasing returns
  - iv. Productivity - concept and measurement
    1. Marginal product of labour and capital - calculations.
- i. Short run and long run costs and production decisions
- . Cost minimization problem
- i. Cost function
  - ii. Cost definitions - total, average, marginal costs
  - iii. Short run cost curves. Relation between marginal cost and marginal product of inputs
  - iv. Long run cost curves. Choosing input mix. Changes in input prices. Long run expansion path. Derivation of long run cost curves. Sunk costs.

### **Module 4: Theory of Markets - Partial Equilibrium Analysis**

Objective: In this module students will be introduced to various market structures such as perfectly competitive markets, monopoly, oligopoly and monopolistic competition.

- j. Competition
- i. Profit maximization - Calculating quantity, profit - numerical example
  - ii. Shutdown rule
  - iii. Deriving short run supply curve

- iv. Entry and exit the firms
- v. Factor demand
- vi. Economies of scale, economies of scope and profit maximization
- vii. Market equilibrium
  - k. Welfare economics
    - . Consumer surplus - individual and market - calculation
    - i. Producer surplus - calculation
    - ii. Competitive markets and maximization of welfare
    - iii. Effects of taxes and subsidies
      - l. Monopoly
        - . Characteristics of a monopoly
        - i. Marginal revenue and profit maximization in monopoly - examples with mathematical treatment
        - ii. Market power
        - iii. Comparing monopoly and competition - deadweight loss.
        - iv. Price discrimination - equilibrium with price discrimination
        - v. Natural monopoly, govt. Sanctioned monopoly, regulation of monopoly
          - m. Oligopoly, monopolistic competition and introduction to game theory
            - . Characteristics of oligopoly
            - i. Introduction to game theory:
              - 1. Description of game, representation, strategies.
              - 2. Prisoner's dilemma, nash equilibria.
              - 3. Examples of games and solutions.
              - 4. Repeated games
            - ii. Cournot model of quantity
              - 1. Solving cournot model graphically and mathematically.
            - iii. Bertrand model of price
              - 1. Solving Bertrand model
            - iv. Stackelberg model
            - v. Cartels and their regulation

### **Optional Module 5: Uncertainty and Expected Utility**

Objective: *This module will introduce the students to the concept of choice under uncertainty and expected utility. The discussion will be advanced from the world of perfect information to the imperfect (unequal) information.*

- a. Von Neumann–Morgenstern utility functions
- i. Assumption of the expected utility theory
  - b. Examples of the expected utility

## Syllabus Bridge Course in Mathematics and Statistics

### Learning Outcomes:

1. To make students familiarize with basic concepts of Mathematics and Statistics
2. To equip them with computer skills (MS Excel) to analyze and present the data
3. To acquaint students with key concepts from mathematics and statistics necessary for basic econometrics like differentiation, probability distributions

### Section I: Basic Mathematics (30 hours)

#### Module I

1. Ratios
2. Writing a ratio in its simplest form, average rate
3. Direct and Inverse proportion, problems involving ratio, rate and proportion
4. Expressing one quantity as a percentage of another, comparing two quantities by percentage greater than 100 %, Increasing/Decreasing a quantity by a given percentage, reverse percentages, problems involving percentages

#### Module II

1. Factoring; Equations: Linear and Quadratic; Completing the Square(Quadratic)
2. Simultaneous Equations
3. Functions
4. Graphs
5. Slopes and Intercepts
6. Logarithms and exponents

#### Module III

1. Matrices and determinants
2. Linear Algebra

#### Module III

1. Limits and continuity
2. Derivatives
3. Continuity and differentiability
4. Integrals

## 5. Differential equations

### Section II: Basic Statistics (30 hours)

#### Module I: Graphs and Diagrams (MS Excel)

1. Introduction to MS Excel
2. Graphs and Interpretation of graphs
3. Types of graphs: Bar Diagram, Flow charts, Pie charts, Pictograph, line Graphs, 'time series graphs, Stem and leaf Plot, Histogram, Dot Plot, Scatter plot

#### Module II: Basic Statistics

1. Measures of Central Tendency: Mean, Median, Quartiles, Deciles, Percentiles, Mode, Geometric mean, Harmonic mean, Merit and demerit of all the averages
2. Measures of Variations: Introduction, Range, Mean Deviation, Quartile Deviation, Variance, Standard Deviation, Coefficient of variation, Skewness, Kurtosis
3. Moments: Raw and Central movements, relation between central and raw movements
4. Skewness and Kurtosis

#### Module III: Correlation

1. Bivariate data: Scatter Diagram
2. Covariance
3. Correlation: Positive, Negative correlation, Karl Pearson's coefficient of correlation

#### Topic VI: Elementary Probability

1. Concept of Probability
2. Conditional Probability
3. Probability distributions: Normal probability, chi-square distribution, student's-t distribution

#### Recommended Books

1. Basic Statistics - A. L. Nagar and R. K. Das
2. Mathematics and statistics for Economics- G.S. Monga
3. Statistical Methods - S. P. Gupta
4. Statistical Methods - S. C. Gupta

5. Schaum's outlines (by Murray R. Spiegel & Larry J Stephen)

6. Pushpa Ranade, 2015, Prathamik Sankhyanki Aani Sanshodhan Paddhati 1st Edition,  
Diamond Publications

7. Pushpa Ranade, 2021, Arthshastriya Ganiti Tantre Va Sanshodhan Padhati, 1st  
Edition, Diamond Publications Pune

## MICRO GROUP 2

Saloni MA, Vinayak, +91 70...

Please add people who you know  
from this list. Mon, 16 Jan

6:39 PM

Sat, 21 Jan

Hello to all, I hope that all of you are fine and healthy. The sole purpose of this group is to provide you the information about the class schedule of Micro -1 ( Core Micro) and cater to any difficulty you people are facing in solving the problems( can be numerical/ theoretical).

I know that you all worked very hard in the last semester but still some of you got "c" or "F" grade in the Micro exam. My aim is to clear your conceptual understanding of the subject and obviously, scoring high marks

3:21 PM

Mon, 23 Jan

Tomorrow class is scheduled at 4pm.

## MICRO GROUP 2

Saloni MA, Vinayak, +91 70...

Mon, 23 Jan

Tomorrow class is scheduled at 4pm.

Agenda: We will start the Consumer theory

Venue : AE 02- MA Building

3:29 PM ✓✓

This is compulsory for students who got "F" in the exam

3:31 PM ✓✓

Saloni MA Gipe added [+91 98670 19331](tel:+919867019331)

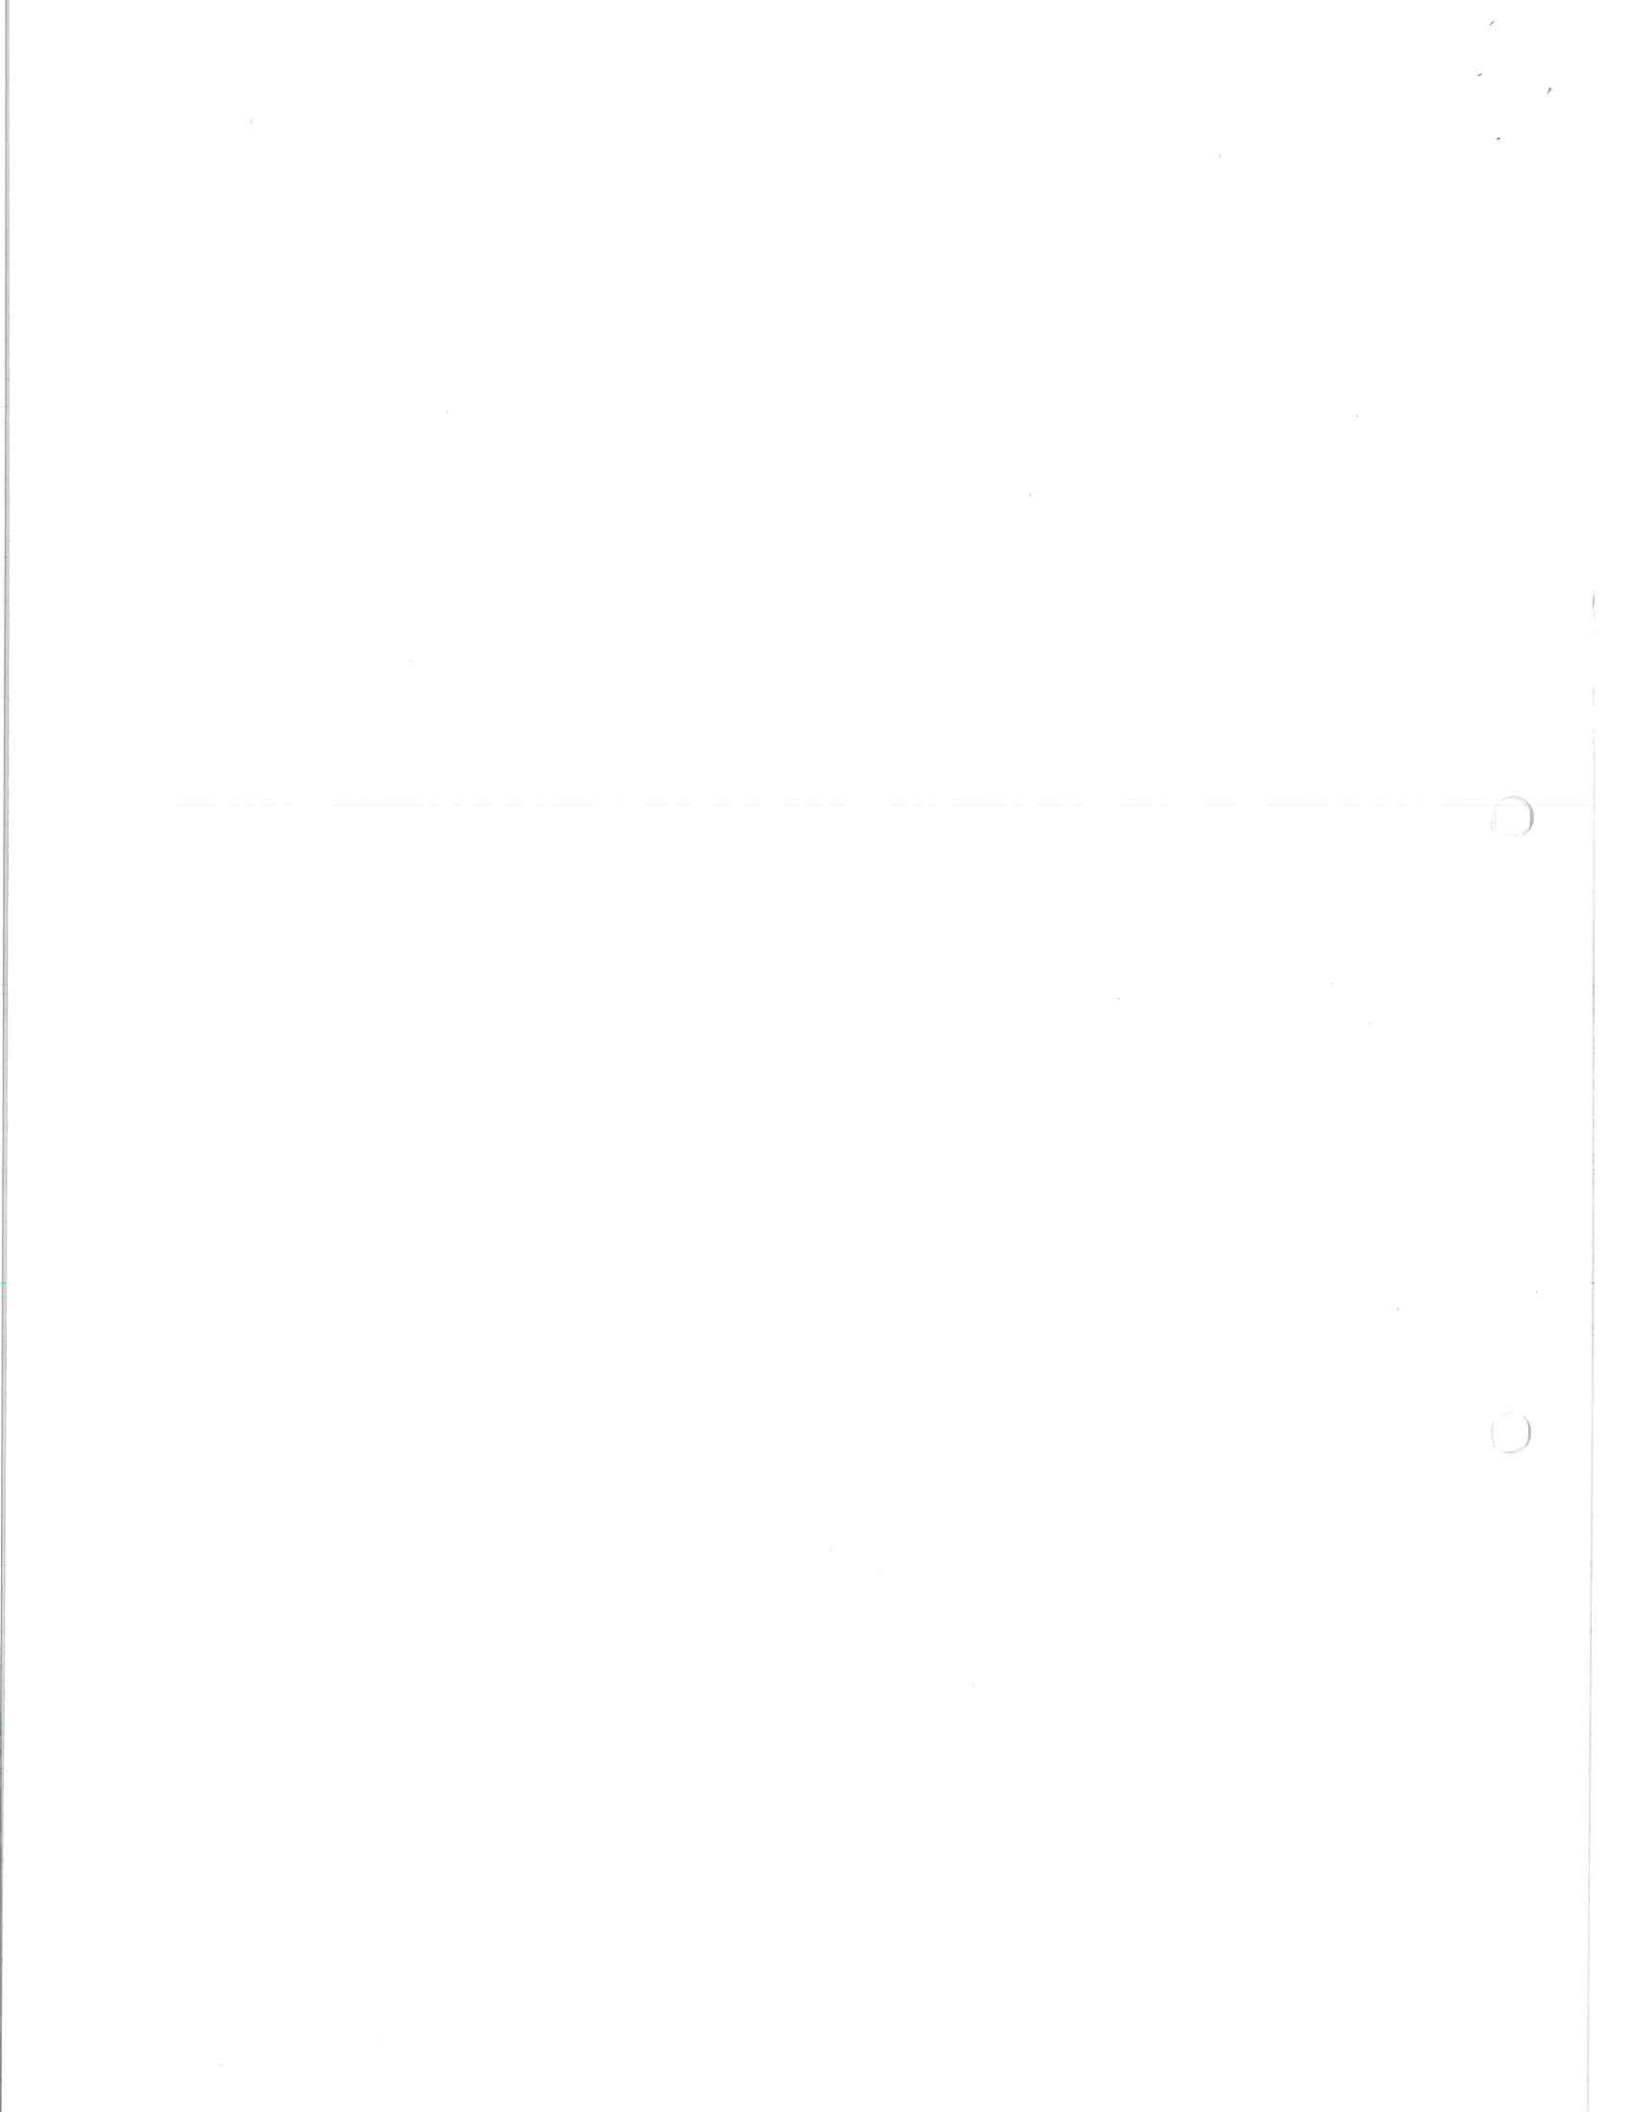

Tue, 24 Jan

You

Tomorrow class is scheduled at 4pm.

Agenda: We will start the Consumer theory

Venue : AE 02- MA Building

4:05 PM ✓✓

~girishzurale +91 73879 72961

Lecture is started... 4:33 PM

Hello Ma'am,

Below attached are the screenshots of our what's app group conversation and I would also like to mention that large percentage of the conversation happened informally via phone call with the regular/interested students.

Thank you.

Dear Students,

Welcome to GIPE-MA\_Batch 2022-24 !

We are excited to have you in GIPE.

As you may know, mathematics and Statistics have been an integral part of economics. To teach you some necessary concepts and help you to brush up your knowledge, we are organizing a bridge course In Mathematics and Statistics.

### Details are as follows:

Nature: compulsory to the selected students

Duration : 60 hrs over the entire semester

Number of credits or marks for the examination : 4 credits &amp; 100 marks

Examination : compulsory

Start date : 17th August 2022

Timings: Bridge Course In Mathematics 5-7pm

Bridge Course In Statistics 7:30-9:30pm

Days: Tentatively for this week 17,18,19 August 2022 (Online Mode)

online Google meet link:

For Mathematics : <https://meet.google.com/aji-fcem-aip?hs=122&authuser=5>For Statistics : <https://meet.google.com/bch-bfpu-jjp?hs=122&authuser=5>

This schedule is only for this week, the next schedule will be shared with you after you come to campus.

Regards,

Ms. Pallavi Suryawanshi

## Regarding Bridge Lectures

Amruta Suryawanshi <amruta.suryawanshi@gipe.ac.in>  
To: acad ma <acadma@gipe.ac.in>

26 August 2022 at 14:22

Dear Students,

Many of you requested me to conduct online lectures for the Bridge Course. I also came to know that majority of the students have not reached Pune yet. So, Bridge course classes will be held online **this week**.

Class timing will be as follows :

Friday, 26-08-2022, 5.30 pm - 6.30 pm

Saturday, 27-08-2022, 4.30 - 6.30 pm

Link for the meet will be shared shortly.

Dear all,

Those who are getting C and F grade in Mathematics For Economics (Sem I) must attend Tutor classes of Rajat sir. These sessions will help you to enhance your knowledge of maths.

Mr. Rajat makes a whatsapp group of those students and starts the classes. I have attached the list of students.

Thanks and regards,  
Ms. Pallavi Suryawanshi

Savita Kulkarni <savita.kulkarni@gipe.ac.in>

## Winter School on 'Econometrics for Public Policy with Applications in R'

savita kulkarni <savita.kulkarni@gipe.ac.in>  
To: Savita Kulkarni <kulkarnisavita@gmail.com>

Tue, Aug 3, 2021 at 12:24 PM

Dear Students,

Hoping that you and your family are safe and well.

Happy to announce that we are organizing a 40-hours winter school on '**Econometrics for Public Policy with Applications in R**' starting from 21st August, 2021.

Dr. Neeraj Hatekar, professor of econometrics, former HoD, Mumbai School of Economics and Public Policy, University of Mumbai will be delivering these lectures.

It aims to cover the following topics which are used heavily in policy evaluation with their applications in the open source/free software R.

1. Regression Analysis
2. Basic Issues with Programme evaluation
3. Instrumental Variables
4. Binary Choice Models
5. Propensity Score Matching
6. Panel Data Fixed and random effects models
7. Difference in Difference Estimators Concepts of Econometrics

**Details** of the school are as follows:

- Total hours of the school: 40 hours
- Duration: 21st August 2021 till 10th October 2021
- Days : Every Saturday and Sunday
- Timings: 5 pm to 7.30 pm
- Mode: online (google meet)
- Certificate: Yes (based on the performance in the assignment)

We request you to revise basic concepts of statistics, CLRM-regression, assumptions of CLRM & violations. You may refer to the Youtube channel of Dr. Hatekar for basics of econometrics.

GIPE's internal committee has decided to charge the nominal **fee** of Rs.500/- (five hundred only) to ensure your sincere commitment towards the winter school.

**Accounts Details** *are as follows:*

Name of Account Holder : Gokhale Institute of Politics & Economics, Pune

Name of the Bank: Bank of Maharashtra

Name of the Branch: Deccan Gymkhana, Pune -411004

Account Number: 60195984312

RTGS/NEFT/IFS Code: MAHB0000003

MICR Code: 411014014

Type of Account: Saving Account

**Registration** of the winter school closes on 14th August 2021.

Fill the registration form after making the fee payment.

For any query, feel free to revert to this email.

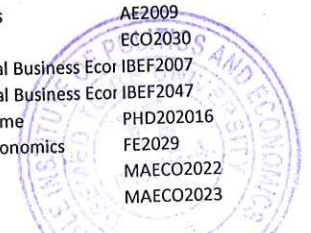

Thanks and Regards

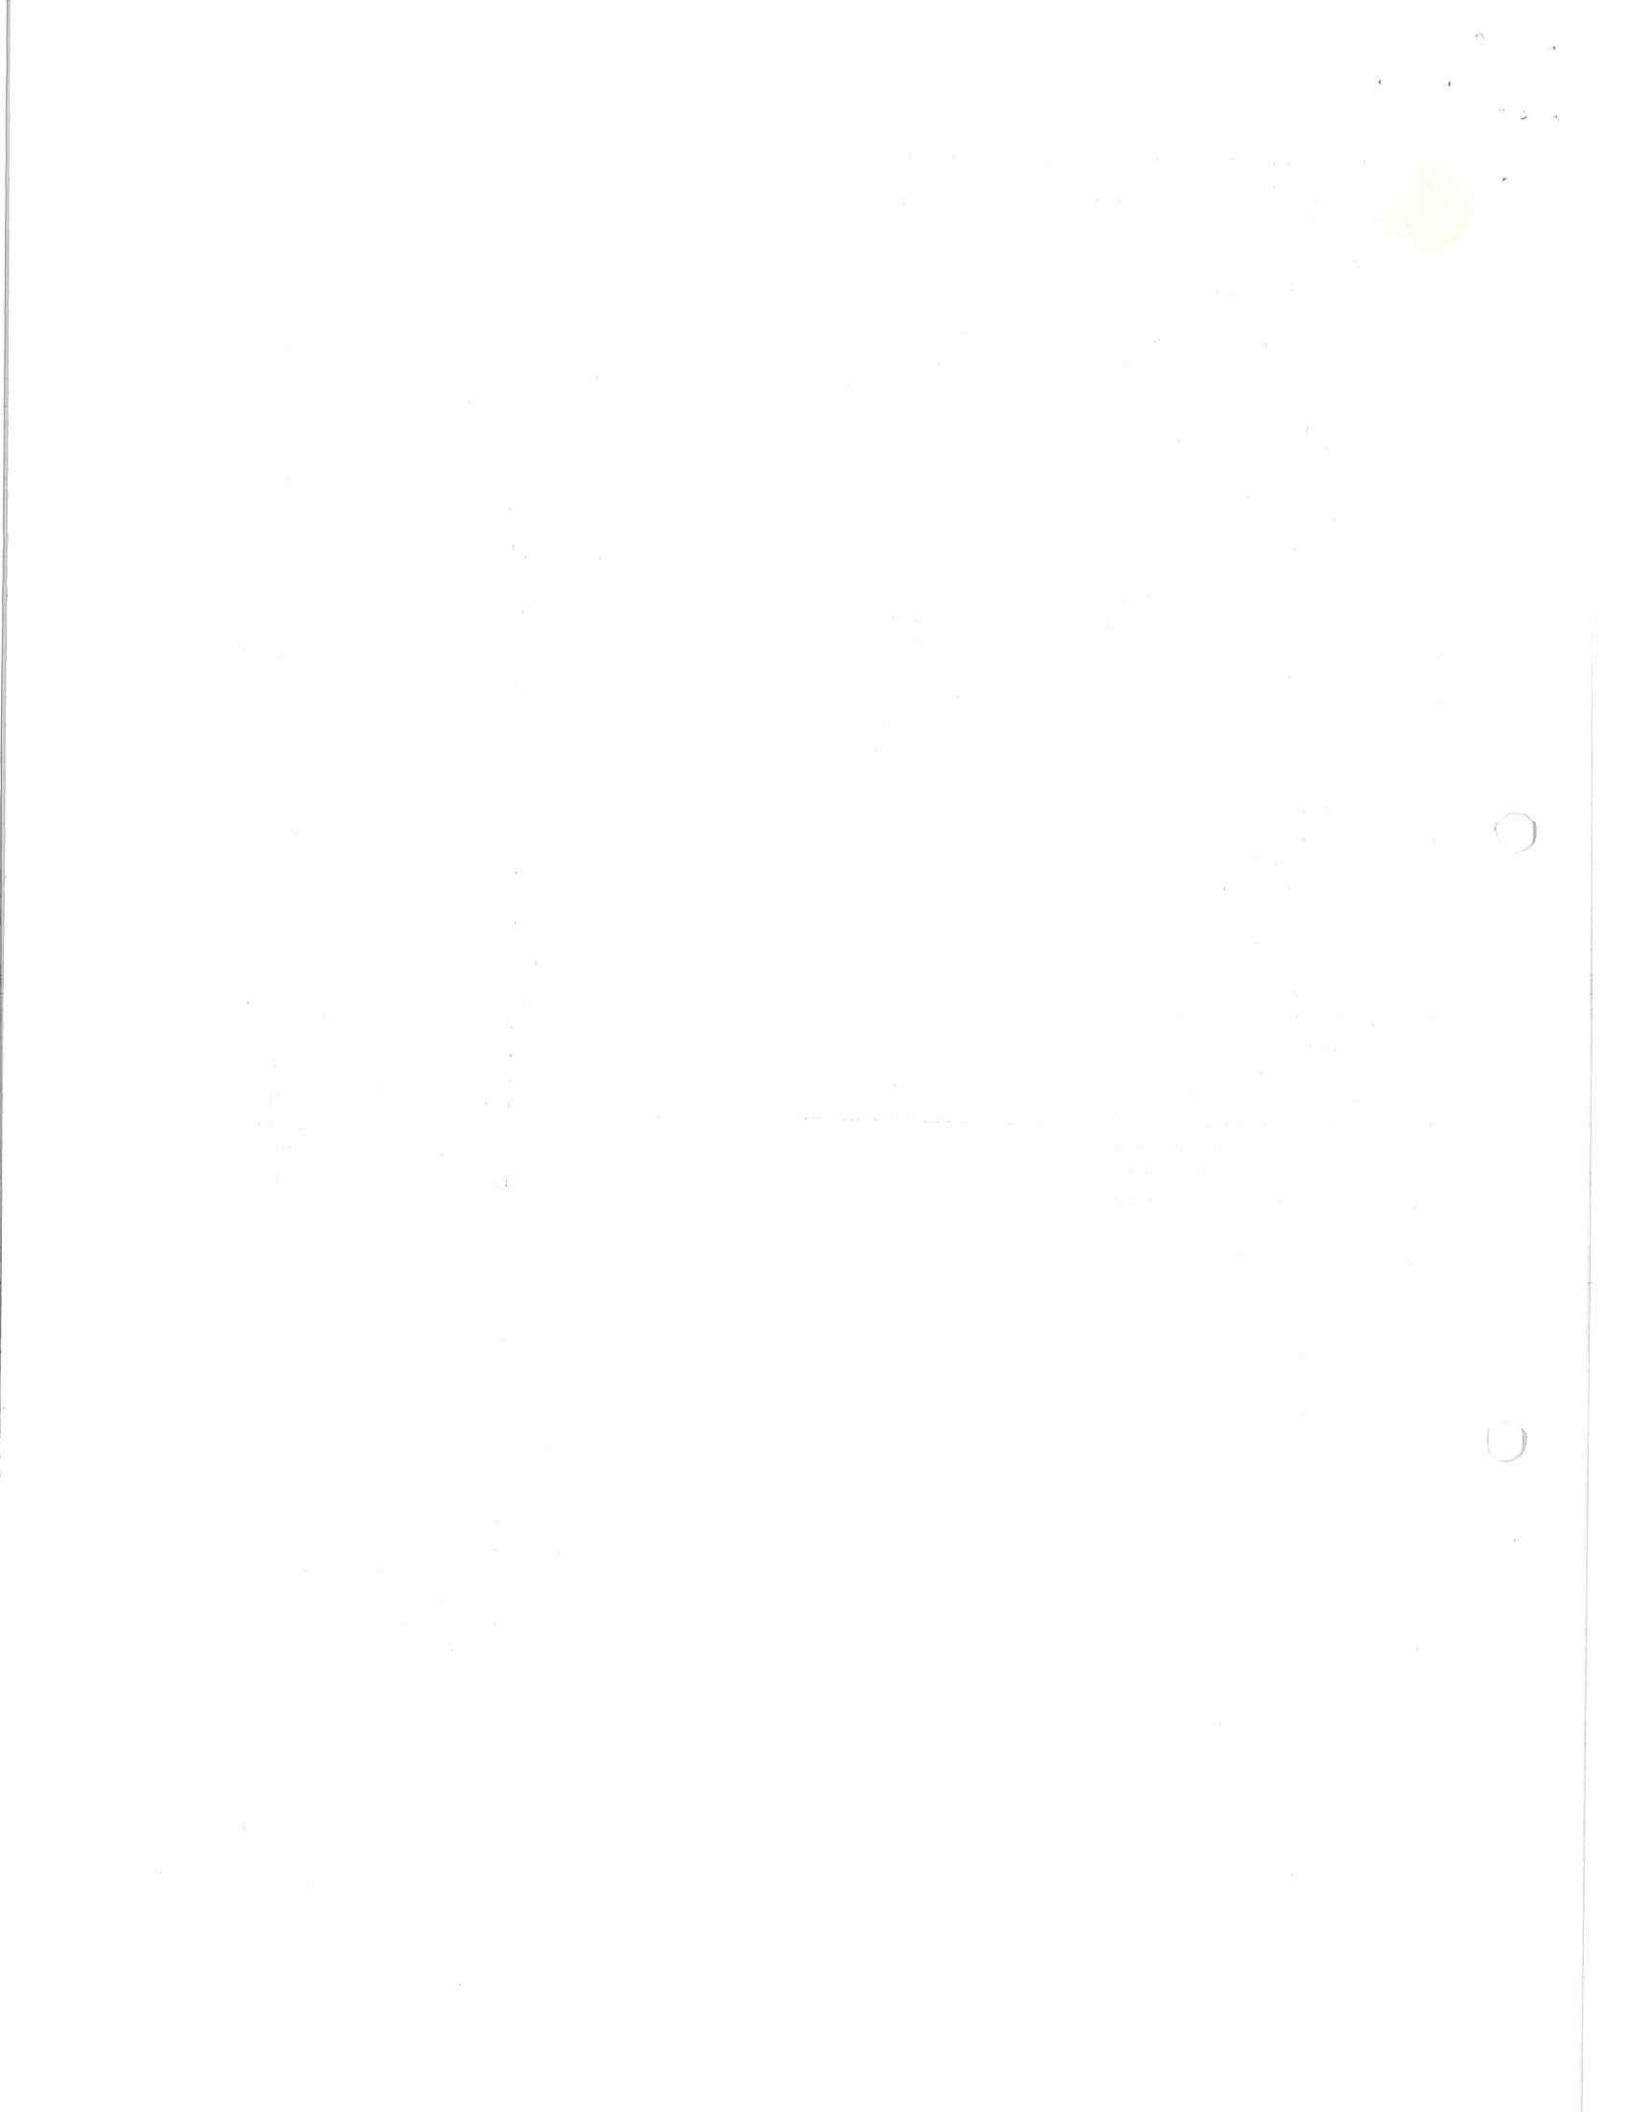

Savita Kulkarni
